

BYRNE EQUIPMENT RENTAL  
**PROJECTS & EVENTS DIVISION**

## BYRNE EQUIPMENT RENTAL

# PROJECTS & EVENTS

Byrne's Projects and Events Division supply solutions to leisure, sporting and tourism events across the GCC. From delivering temporary power and lighting to grandstand seating and security fencing, we support leading professionals in the events industry in making their event a success.

The level of customer service we provide is second-to-none, with one point of contact for all required rental needs, and a genuine 24-hour call centre (ensuring a backup service) that remains unmatched in the market today.

We remain the only company to provide a one-stop-shop facility to cater for your every rental need:

- 1/** Ablution Units
- 2/** Seating Solutions
- 3/** Portable Cabins & Containers
- 4/** Catering Equipment
- 5/** Building & Storage Solutions
- 6/** Event Flooring
- 7/** Barriers & Fencing
- 8/** Lighting Towers
- 9/** Generators
- 10/** Tailored Requirements

## ABLUTION UNITS

1 2 3 4 5 6 7 8 9 10/

### Standard and VIP

A wide range of ablution units and containers are available from 8ft – 40ft, Asian or European standard.

These include:

- Individual Chemical Toilets
- Ladies and Gents Ablution Units -all male, all female, male and female split
- Disabled Ablution Units
- Baby Changing Facilities
- VIP Ablutions Units
- Changing Rooms including Shower Units

All ablution units come with fresh water and built in sewage tanks.

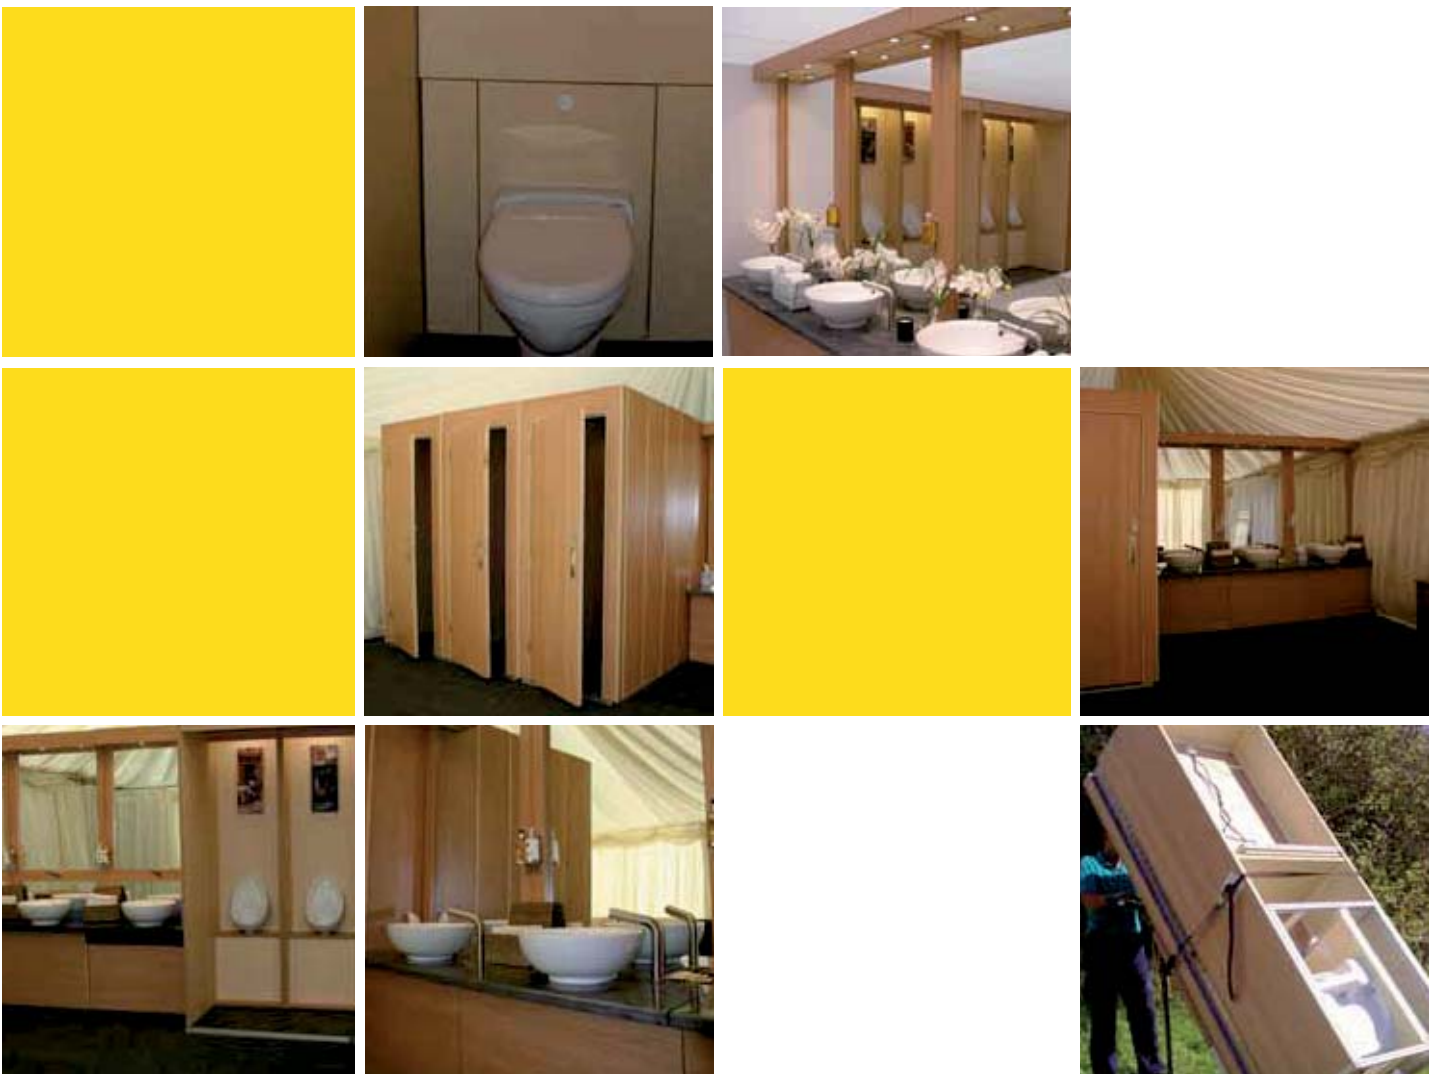

## Flexi Loo

The Flexi Loo is the ultimate in hygienic environmentally-friendly toilets.

- Easily manoeuvrable – can be manually carried to the installation site
- Can fit through a 1.9m x 0.69m doorway
- Only half a litre of water is used per flush
- During each flush, air is sucked out of the cubicle, sucking bacteria into a sealed system, rather than being atomised into the room
- Requires 2 x 13 amp single phase electricity supply and 3 bar water supply

The Flexi Loo offers luxury, hygienic clean water flushing lavatories, vanity areas and urinal facilities in a combination ideal for any number of guests.

### **Trailer Mounted Flexi Loo System**

The system is perfect for events such as weddings, private parties, corporate hospitality, sporting events and family fun days.

- The toilet trailer is self-contained, only requiring a power supply
- Delivered with a four-wheeled drive liveried vehicle
- Easily manoeuvrable with easy access from the wooden steps
- Byrne can arrange for an attendant to be on-site throughout your event to keep the loos clean and tidy
- Guest use: up to approx 250 guests depending on the nature of the event and its duration
- Fresh water: advisable to have fresh water on standby to replenish handbasins
- Power supply: 3 KVA of power if running from a generator or 13amp supply from a good, modern mains power source

## SEATING SOLUTIONS

1 2 3 4 5 6 7 8 9 10 /

- Full erection/dismantle service
- Various seating configurations
- Standard tread depth of 800mm and standard seat width of 500mm
- Unrivalled comfort with a useful seat depth of almost 1 metre
- 166mm or 333mm riser available
- Ringlock system sub-structure
- Designed to meet all current British safety standards
- Pleasing aesthetic appearance
- Complete consultancy and technical advisory service
- Preventative maintenance and 24/7 emergency service response

## PORTABLE CABINS & CONTAINERS

### Two and three roomed cabins and containers available:

- 16ft - 40ft Office Cabins
- 20ft – 40ft Office Containers
- 10ft Ticket Booths and Containers
- 40ft Box Offices
- 32ft Laundry Units

### Different layouts are available, these include:

- Kitchens
- Toilet and Shower Facilities
- Storage Facilities

## CATERING EQUIPMENT

20ft /40ft reefers to large scale catering kitchens and mobile kitchens are available with internal equipment as standard.

- 20ft and 40ft Reefers
- 32ft Mobile Kitchen Unit c/w Septic Tank
- 40ft Mobile Kitchen Unit c/w Septic Tank
- 20ft Fast Food Outlet/Stall
- 40ft Fast Food Outlet
- 40ft Fast Food Outlet (2xKitchen)

Other rental equipment includes:

- Temporary Dance Floors
- Picnic Tables

## BUILDING & STORAGE SOLUTIONS

Byrne has joined forces with Algeco, the largest provider of portable rental buildings in the world. Byrne is to offer Algeco's products on an exclusive basis for rental purposes in the UAE.

Byrne will initially be offering two groups of Algeco products;

### **Building Solutions**

The 4000KD building series will support any company in all their projects from the simplest to the most ambitious and enable them to cope with all situations in a short time frame. Examples of what the 4000KD can be used for includes:

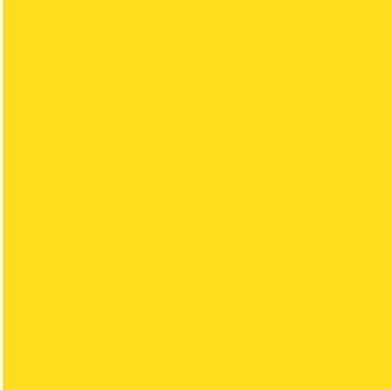

- A classroom to accommodate new students
- Additional meeting rooms/offices for a company
- Facilities to workers on a construction site
- Medical facilities
- Recreation areas
- Accommodation

### **Storage Solutions**

Batex will provide strong and durable storage warehouse units, ideal for storing equipment, vehicles, spares, or excess retail inventory. The Batex frame and roof are made of galvanized steel, which requires no maintenance and is resistant to extreme weather conditions, and are extremely quick to erect.

### **Logistics**

The modules are designed to optimise transportation through flat-pack (5 units in a container) or knock down (10 units in a container) mode. These flat pack and knock down units can be moved promptly and with ease. The Building and Storage solutions always arrive on-site clean and ready for immediate use.

## EVENT FLOORING

1 2 3 4 5 6 7 8 9 10/

### ArmorDeck

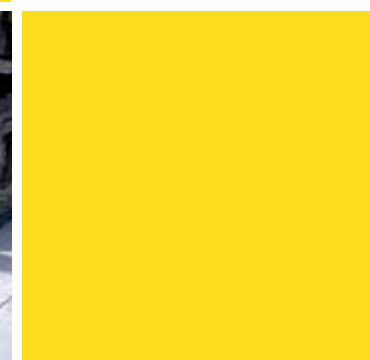

- Covers any sub surface, creating a perfectly flat, rigid deck, ready for carpeting or leaving bare
- Weight loading of 25,000 lbs/sq ft
- Sloped edge pieces give easy transitions from the sub surface for pedestrians, vehicles, trolleys, and disabled access. The only system in the region, at this size, with this major health and safety benefit

### HexaDeck

- Protects sub surfaces from damage caused by vehicles, creating a neat vehicular and pedestrian passage
- Supports loads of up to 30,000 lbs/sq ft
- The tiles follow the sub surface contours, self levelling the area across uneven surfaces

### DuraDeck

- Protection for heavy pedestrian and heavy vehicle access
- Weight loading of 80 tons; ready for the heaviest of loads whilst protecting the sub surface

## BARRIERS & FENCING

1 2 3 4 5 6 7 8 9 10/

### Crowd Control Barriers (Police Barriers)

- 1000m of police barrier available
- Galvanized steel police barriers with a curved edge design
- Each barrier measures 2.5m long with a height of 1.2m
- Used for forming a queue system/segregation at food and beverage areas, checkpoints, VIP entrances & main entrances of events of all types

### Crowd Control Barriers (Mojo Barriers)

- Over 500m of mojo barrier available
- Each barrier measures 2m long with a height of 1m
- Used for front of stage to stop crowds/segregation of crowd

### Mesh Fencing

- 4km of fencing available
- Each fence measure 3.5m long with a height of 2m
- 95% green or black netting available
- Used for perimeter fencing/segregation

### Picket Fencing

- 500m of fencing available
- Perfect for protecting or marking out boundaries, but also allow light to pass through or people to see through the fence

## LIGHTING TOWERS 1 2 3 4 5 6 7 8 9 10/

Mobile tower lights are available with a low noise design, suitable for any event.

- 360 rotation with fully extending vertical hydraulic or manual mast for quick and easy changing of light direction
- 4 x 1000w metal halide lamps designed specifically for site use – light coverage of 4200 m<sup>2</sup> at 20 lux
- Very stable design fitted with rugged stabiliser legs to withstand wind speeds of up to 80 kph
- Individually switchable lights - electric light tilt via control panel
- Fully welded base frame with retractable tow bar
- 6/9 KVA internal generator fitted as standard
- Two power outputs for added versatility
- Complete consultancy and technical advisory service
- Preventative maintenance and 24/7 emergency service response

## GENERATORS

1 2 3 4 5 6 7 8 9 10/

Robust and highly corrosive resistant generators are available ranging from 3.6 KVA to 1650 KVA.

- Comprehensive pre-delivery inspection programme including full load testing and checking of all control and safety shut-down functions
- Sound attenuated enclosures with excellent noise reduction to international standards
- Fully engineered with a wide range of options and accessories
- Built in synchronisation panels with easy 50/60 Hz conversion
- Tested to work in temperatures up to 50°C
- Bunded fuel tanks to contain spillages
- Complete consultancy and technical advisory service
- Preventative maintenance and 24/7 emergency service response

## TAILORED REQUIREMENTS 1 2 3 4 5 6 7 8 9 10/

### **Omega Dubai Ladies Masters & Dubai Desert Classic - Golf in Dubai**

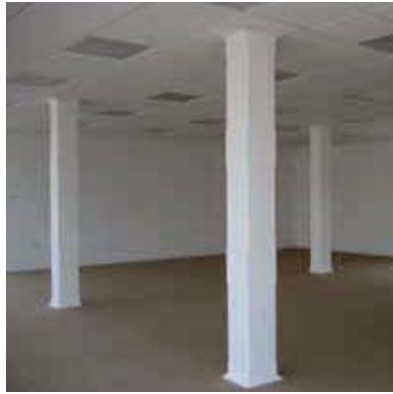

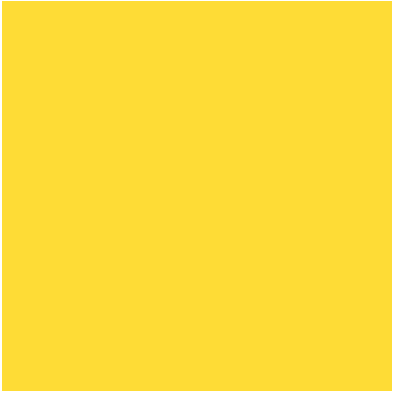

Our site management covered every aspect of the tournament organisers requirements from complete site infrastructure, including corporate chalets, operations cabins, generators and toilets, to floating the sponsors car on the Majilis course lake and installation of all the sponsorship signage off and on course.

As a result of our extensive involvement in both tournaments we are in effect on site for 6 months of the year setting up for and ensuring the smooth running of the events, with a dedicated Projects Manager and team on hand 24/7. As per the contractual requirements Byrne have to install and demobilise all equipment prior to the Ladies tournament and post Desert Classic.

### **Formula 1 Etihad Airways Abu Dhabi Grand Prix - ADMM**

In 2010 Byrne were awarded the sole contract by ADMM to supply all additional non-mechanical equipment needed to the Formula 1 Etihad Airways, Abu Dhabi. Byrne had over 150 pieces of equipment on the Formula 1 site with Byrne staff on hand 24/7 to ensure everything went smoothly in regards to the equipment supplied. ADMM demands were met to extremely tight deadlines, even if it meant completely changing the original site plans.
